### Globalex News

- The board may invite representatives of other organizations to become MC members as observers if they contribute to the aims of Globalex. Like other members, observers are appointed for a two-year period and may be re-appointed once. They take part in the meetings but are not eligible to be elected Chair or Vice-Chair and do not have the right to vote. Any entity that is interested in lexicography and that are considered by MC as an important collaborator is eligible to become an observer.
- We discussed possible publication of GlobaLex workshop proceedings on Globalex website. The most important factor is indexation by Scopus, Web of Science, etc. We would need at least 3 years (more likely 4-5 years) to be considered by Scopus.
- The Netherlands tax authorities have agreed to exempt GlobaLex from submitting quarterly

reports (as it has no income or expenses).

### **Globalex Website**

- Amanda will join Lars and Ilan in the sub-committee for the Globalex website redesign.
- Lars has circulated the sub-committee's proposal in advance.
- The sub-committee plans to meet with Iztok Kosem to elaborate about incorporating Elexifinder and consult in general.
- We discussed criteria for posting obituaries to the website. The consensus is that we could honor those with international standing and those specifically nominated by any association. We could consider adding an obituary section in Elexifinder referring also to relevant items published in other media. MC members are asked to report any candidates from their regional associations
- Globalex was accorded space on the Elexis server to use as an archive and Lars has uploaded the documents he has.
